

Our 42' Survey Vessel *R/V Galatea* is the newest addition to Semper Diving and Marine's offshore capabilities. *Galatea* has undergone extensive upgrades over the past year to accommodate for surveying, diving, and robotics work. She is equipped with spacious available lab space, a heavy duty hydraulic A-frame and winch, ample deck space, sub-meter resolution survey quality GPS, and more. Click below for *Galatea's* complete informational brochure.

New renovations to the *Galatea* were completed in the Fall of 2017 and includes:

- Complete Hydraulics and Fuel Line System Overhaul
- Custom Instrument Arch with space for additional equipment
- Extended Heated Wheelhouse
- Renovated Deck space with new rails and anti-skid matting
- 360 Degree view from wheelhouse
- Renovated soundproofing and muffler system
- Reverse Pilot Station from wheelhouse

Vessel Galatea and Robotics:

The Galatea is equipped with Semper's Saab Seaeye Falcon ROV with a depth rating of up to 1000' and additional payload features including a 5-function manipulator, cathodic protection probe, cleaning brush, and pressure washing wand.

Semper can also provide an IVER3 AUV for bathymetric surveying and mapping with the Galatea. Inquire about reserving Semper's subsea robotics with the Galatea.
